

Experimental Researches in Electricity Volume 3

By Michael Faraday

TheClassics.us. Paperback. Book Condition: New. This item is printed on demand. Paperback. 208 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1855 edition. Excerpt: . . . of Hobarton, Toronto and elsewhere, may depend upon the manner in which, at different hours, these two causes (probably with others) combine together. 1 In relation to the cold of the upper atmosphere and the occurrence of its maximum (at certain levels at least), not at midnight but hours after, how often do we in this country see a clear bright night, and then just before the Bm rises, the formation of a veil of clouds high up, and, upon his appearing, their dissolution and passing away! In these cases the clouds show the time f greatest cold above by their formation, and by their dissolution its quick and change into increasing warmth. 3013. Though the declination varies little or nothing between l7h and 21h, no westening then appearing (3010.), still I should expect a marked action on the inclination at that time,...
