Allerdings dürfte es in diesem Punkt in der Zukunft noch zu harten Verhandlungen kommen.' [24]. Since it has been discussed controversial over years, this paper will examine the role and potential of renewable energies (REs) for a future energy mix or even a substitution of the conventional primary energy source (PES) in the EU with respect to four primary aspects. These are imbedded in the question, which PESs respectively which energy mix is the best solution for a long-term energy policy, regarding the highest possible supply guarantee and energetic independence the EU with a minimum of economic costs and negative environmental impacts. Apparently, these four aspects are often merging. For instance, the damage caused by negative environmental impacts partially leads to economical...
